REAL POWER. REAL SOLUTIONS.

CAT

CAT

3,000 – 4,000 LB. CAPACITY 3-WHEEL ELECTRIC PNEUMATIC TIRE LIFT TRUCKS

TOTAL CONTROL

Delivering Premium Performance

The Cat[®] EP16PNT-EP20PNT electric pneumatic tire series is designed to work – delivering high-performance levels and increased productivity even in challenging applications. Featuring enhanced energy efficiency, exceptional productivity levels and premium operator ergonomics, these lift trucks are designed for what matters most – getting the job done.

ADVANTAGES TO YOU:

- AC technology combined with enhanced performance levels and decreased maintenance requirements lead to increased productivity and uptime.
- Zero harmful emissions (HC, CO, NOx, PM).
- Reduced consumption and dependence on fossil fuels equate to overall lower cost of ownership.
- Comfortable operator cabin and electric power steering allow the operator to be more productive during long shifts.

KEY APPLICATIONS:

- Cold Storage
- Food Processing
- Grocery
- Warehousing
- Wholesale Trade

LITHIUM-ION AVAILABILITY:

- Greater power efficiency
- Run for 24 hours a day, 7 days a week with opportunity charging
- Zero battery maintenance
- No watering
- No more battery exchanges

- No gas emissions, odor or acidification
- No special charging areas or equipment needed
- Longer lasting life cycles (up to 3,000)
- 5-year warranty on batteries
- 2-year warranty on chargers

R-1661

DURABILIT YOU CAN DEPEND ON

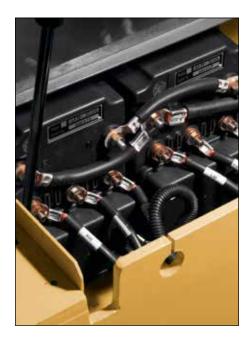

#

Built Tough For Rough Applications

These durable, electric Cat lift trucks can deliver performance similar to, or better than, an internal combustion (IC) forklift with all of the benefits of an electric, including an emission level reduction to almost zero, no fuel expense and lower forklift maintenance costs.

READY TO WORK

The EP16PNT-EP20PNT series is designed to operate at a high right rate of performance even in moist or dusty environments. These lift trucks feature:

- Sealed electrical components allow operators to work effectively in extremely cold or damp applications.
- Wet disc brakes provide added protection from contaminants, allowing the lift truck to thrive in moist or damp environments.

POWERFUL PERFORMANCE

This series is equipped with high-performance features to help your operators achieve maximum productivity throughout the shift.

- Intuitive speed control helps operators remain in control while traveling at higher speeds and reduces the risk of damage to the operator, property and lift truck.
- Regenerative braking the motors are designed to act as a generator during braking, effectively turning the lift truck's momentum into energy and feeding it back into the battery.
- **Closed AC motors** allow these lift trucks to operate in environments that previously only IC trucks could handle. The truck's sealed systems provide better protection against dust, moisture and other debris that may be present in tough applications.
- **Solid pneumatic tires** Better distribute floor loading weight on unpaved surfaces when carrying a load.

LESS MAINTENANCE, EASY TO SERVICE

With extended service intervals and sealed components, these lift trucks provide greater uptime to keep your business moving.

- 500-hour extended service intervals
- Display-based maintenance reminders
- Easy access to service components

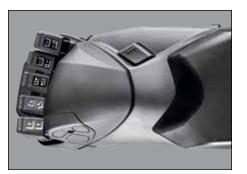

SUPERIOR CONFORT

Designed For Your Operators

The EP16PNT-EP20PNT series is built with premium ergonomic features for operator comfort and control. From easy entry and exit to a smooth, quiet ride, this series is designed to keep your operators achieving maximum productivity from the first hour to the last.

- Optional fingertip hydraulic controls – allow easy maneuvering and offer low-effort, precise control with an integrated direction switch and horn.
- **Optimized visibility** open layout of the overhead guard and slim mast profile offer excellent forward visibility when driving and lifting.

• Spacious operator compartment – three-way, adjustable full-suspension seat accommodates operators of any size, and the two-way adjustable steering column gives operators more leg room with lower steering effort.

• Premium LCD/LED display panel – helps raise awareness of the lift truck's critical fluid levels and the current operating condition.

Local service and support

Genuine OEM parts

Custom financing packages

NORE CONFIDENCE

Factory warranty for added protection

Local Support You Can Count On

A Cat lift truck purchase connects you to a variety of material handling solutions, including worldclass service and support from your local, trusted dealer. With trained service technicians, a diverse parts inventory and a broad selection of service options, your local dealer can help you lower costs, enhance productivity and more efficiently manage your business.

FINANCING MADE SIMPLE

Financing your next Cat lift truck is easy with our wide range of flexible leasing and purchasing options. Whether you want to finance or lease, your local Cat lift truck dealer can help customize a package for your business.

WHEN EVERY PART COUNTS

When buying from your local Cat lift truck dealer, you can rest assured that your genuine OEM parts are manufactured to meet original equipment criteria. Additionally, all Cat lift trucks OEM parts come with a six-month, unlimited-hours warranty.

When speed is critical, our Parts Fast Or Parts Free Guarantee* ensures next-business-day delivery of all Cat lift trucks parts, or they're free, including freight. If your part doesn't come in by the next business day, we pay for it.

STANDING BEHIND OUR PRODUCTS

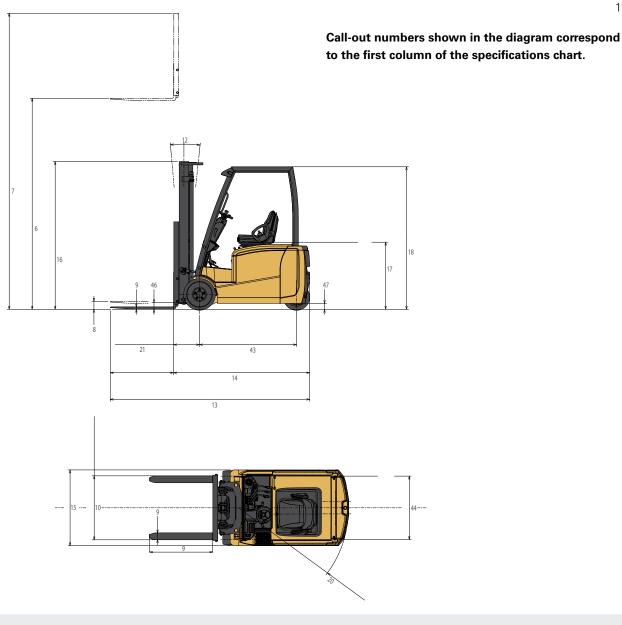

We deliver peace of mind by helping your lift trucks stay on the job. Every new Cat lift truck is covered by a 1-year / 2,000-hours warranty that includes parts and labor, as well as components and systems. With our standard 2-year / 4,000-hours extended powertrain warranty, you'll have the confidence that only comes from owning a Cat lift truck.

* At dealer's location.

Programs may be subject to change without notice and may vary by region. Please ask your local Cat lift truck dealer for complete terms and conditions.

Safety Standards

These trucks meet American National Standards Institute/Industrial Truck Standards Development Foundation, ANSI/ITSDF B56.1.

UL-Classified by Underwriters Laboratories, Inc., as to fire and electric shock hazard only. Availability: Types G, LP and D standard. Types GS, LPS and DS optional. Users should be aware of, and adhere to, applicable codes and regulations regarding operator training, use, operation, and maintenance of powered industrial trucks, including:

- ANSI/ITSDF B56.1.
- NFPA 505, fire safety standard for powered industrial trucks type designations, areas of use, maintenance and operation.
- Occupational Safety and Health Administration (OSHA) regulations that may apply.

Contact your Cat lift truck dealer for further information, including operator training programs and auxiliary visual and audible warning systems, fire extinguishers, etc., as available for specific user applications and requirements. Specifications, equipment, technical data, photos and illustrations based on information at time of printing and subject to change without notice. Some products may be shown with optional equipment.

Note: Equipping this model (these models) with a power source (e.g. Lithium-ion, Hydrogen Fuel cell, etc.) that has not been previously approved by the factory is considered a modification. Per OSHA 1910.178 and ANSI/ITSDF B56.1, please consult with your factory representative prior to installing any non-OEM power source that has not been previously approved.

Your Cat lift truck dealer can provide additional options and features to specialize your lift truck for your unique application. Operator training and custom financing programs are also available to help find the right fit for your business.

Helping move businesses forward - that's how we're built.
